

Please join us for a special evening with

Jennifer Serravallo

Complete Comprehension

You may have heard the adage that up to third grade children *learn to read*, but from then on they *read to learn*. I believe all children—of any age, of any level of proficiency—still need to *learn to read*. It’s based on the conviction that with explicit teaching, and ample time spent reading, every student can be taught to read more thoughtfully, meaningfully, and insightfully. In this workshop, Jen will explore assessment and strategies that support comprehension goals, and the ways in which comprehension intersects with levels of text complexity. ~Jennifer Serravallo

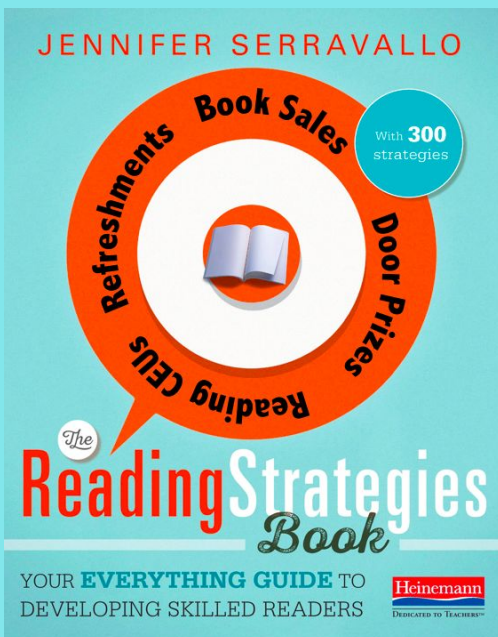

Tuesday, May 15, 2018

Minnesota Masonic Heritage Center - Gideon S. Ives Auditorium
